3 Years 10 Months of experience

PROFILE SUMMARY

.NET Developer with nearly 4 years of expertise in C# programming and .NET application development, specializing in ASP.NET MVC and ASP.NET Core frameworks. Proficient in designing business features, backend logic, and building RESTful APIs. Skilled in SQL Server database management, enterprise system integration, and resolving production issues. Experienced in QuickBooks ERP integration and Sage Intacct customization using JavaScript. Demonstrated ability to collaborate effectively with Business Analysts and QA teams within Agile and Scrum environments, ensuring timely delivery of high-quality software solutions. Strong problem-solving skills and a commitment to continuous improvement in software development.

WORK EXPERIENCE

Software Engineer

Azairo Technologies

Jun 2022 - Apr 2026

Developed and maintained enterprise application features using C#, .NET, ASP.NET MVC, and ASP.NET Core. Implemented business logic, CRUD operations, validations, and application workflows based on functional requirements. Developed and integrated REST APIs for application and external system communication. Created and optimized SQL Server queries and stored procedures for application data processing. Developed QuickBooks ERP integration functionality for business data exchange and application workflows. Developed Sage Intacct application customizations using JavaScript based on client-

KEY SKILLS

- Microsoft SQL Server Database
- C#
- Javascript
- ADO.Net
- ASP.NET MVC
- Microsoft .NET Framework
- Restful Web API Development
- Quick Books
- SAGE ERP
- Bitbucket
- JIRA
- Agile Methodology
- GIT Version Control

PROJECTS

Sage Intacct — Client Application Development

9 Months

Role: Application Developer
Duration: August 2025 — April 2026
Technologies: Sage Intacct, JavaScript, REST APIs, Postman, Git
Developed and customized Sage Intacct applications based on client-specific business requirements. Implemented application functionality and business workflows using JavaScript within the Sage Intacct environment. Developed client-specific customizations, validations, and workflow enhancements. Worked on payment-related functionality and REST API integrations where required. Analyzed requirements and converted functional specifications into application changes. Troubleshoot application issues and implemented fixes based on functional requirements. Collaborated with Business Analysts and QA teams for requirement validation, testing, and releases. Used Git for source/version control during development.

specific requirements.
Implemented payment-related API integrations where required by business workflows.
Investigated application and integration issues, performed root-cause analysis, and implemented fixes.
Used debugging and logging to identify application issues and improve application stability.
Participated in code reviews and followed established coding and development standards.
Worked closely with Business Analysts and QA teams for requirement analysis, testing, defect resolution, and releases.
Used Git for version control and worked in an Agile/Scrum development environment.

EDUCATION

B.Tech / B.E. - Electronics and Communication Engineering (ECE)

2020

Pragati Engineering College, Kakinada

Grade - 7.67/10

Class XII

2015

Andhra Pradesh, English

Marks - 86%

Class X
